Miss Mattie Evans First to Vote Anywhere Near the Million Mark in the Sun's Great Voting Contest

James Langstaff Second, Miss
Carmen Andrews Third,
Miss Armstrong Fourth
and Mrs. Winstead Fifth

The million mark has almost been reached in "The Sun and Associate Newspapers" Voting Contest, and the magnitude of this great undertaking is beginning to be realized.

Miss Mattie Evans, of Barlow, Ballard county, is the first candidate to vote anywhere near the million mark. Her score as published today is \$46,908.

The candidate who held second honors at the close of building yesterday at noon in Mr. James Langstaff, of Paducah, who had voted \$13,625; Miss Carmen Andrews, of Wickliffe, was third with \$64,457; Miss Lexie Armstrong, of Lovelaceville, fourth, with \$61,372, and Mrs. S. H. Winstead, of Paducah, fifth, with \$54,800.

The order will probably change by tomorrow and some of the five leaders of today will probably drop back farther into the ranks and new names appear in the lead lines in Thursday's paper. The final struggle is on and the race is going to be hard-fought and exciting from now until Saturday.

Nearly every candidate attracted into the race by the \$10,000 prize list has worked hard and faithfully and not a few of them have had splendid luck. It is not telling tales to declare that more than one will cross the million mark before the week is over. The fight for the grand prize is going to be the prettiest contest ever witnessed, and the winners will probably go under the wire only a few votes to the good.

Subscriptions are coming in fast this week and candidates are again urged to turn in daily. Saturday will be a busy day with the contest department, and it will be more

Prospectors Are Drowned.

Edmonton, Alberta, Aug. 4.—Reports say that Count Von Hammerstein, a well known old prospector, and his party were swamped while trying to shoot the grand rapids in a light boat. Two members of the party, Edward Lafranche and H. Volkoffski, were drowned. The count saved himself.

Savings of Life-Time Lost.

Chicago, Aug. 4.—Special detectives of the Pullman company are on the trail of \$5,000 in bills tied in a handkerchief lost by Mrs. Anna Childs, of Washington, D. C., while in a berth on her way here. It is the savings of a lifetime. She believes it was stolen. She was on her way to purchase a house for her son here. Pullman officials believe the money slipped out of the berth upon the floor and was found by some passenger.

Woman Author Secures Divorce.

Chicago, Aug. 4.—Mrs. Frances Trego Montgomery, author, and prominent society woman, was granted a divorce this morning from her husband, Hugh M. S. Montgomery, a wealthy broker, and member of the Chicago board of trade. It is alleged the husband is paying attention to a young woman, a detective on the stand testifying he had followed him and the woman on a trip to New York. There was noimony arrangement.

INFATUATED ACTRESS SHOOT AT MARRIED MAN.

New York, Aug. 4.—Mrs. Neville Chute, who shot and slightly wounded William B. Craig, a lawyer, the bullet hitting a fountain pen in his pocket, in the Waldorf Astoria last night, was arraigned in Jefferson market police court this morning. She had the case postponed until Friday, being put on bond of \$3,000. She is still in jail. She is a former actress and a San Francisco society leader. She declares she tried to commit suicide in the presence of Craig, with whom she was infatuated, but he would not divorce his wife. When he tried to prevent her he was accidentally shot. He says she shot intentionally. Craig's wife is taking his side.

MR. BARKLEY WILL SPEAK AT ODD FELLOWS MEETING

Mr. Alben Barkley was requested this morning to deliver an address at the Odd Fellows meeting at Danville, Tenn., August 14. This will be quite a large affair, as seven or eight counties will be well represented. Mr. Barkley will speak on Odd Fellowship and a number of distinguished men will be present.

PICNIC FOR POOR.

The annual picnic to the poor and afflicted will be given August 29 at Wallace park by the Rev. and Mrs. R. W. Chiles, of the Union Rescue mission. Mrs. Chiles has direct charge of the work. She will call on citizens for donations; as it is expected to furnish dinner for the people. Anyone wishing to contribute can call the mission by telephone.

STATE AND FEDERAL AUTHORITIES MAY CLASH OVER THIS

Provincetown, Mass., Aug. 4.—Complications between the federal authorities and the state probably will result as the refusal by Admiral Schroeder, of the Atlantic fleet, to surrender David W. Williams to answer for the death of H. H. Foster, mess attendant of the battleship Vermont, who died after a boxing bout with Williams on that vessel. When Detective Bradford, of the state police, demanded Williams of the naval authorities to answer the charge of manslaughter, Admiral Schroeder in refusing to give him up to the authorities, said he did not deny the state's jurisdiction, but the government had instituted an inquiry and wished to wait until the investigation was concluded. It is said that if Schroeder refuses to surrender the man Attorney General Malone will take up the matter with Washington.

TRUNKS MAY CONTAIN THE LITTLE VIVIANO CHILDREN

Chicago, Aug. 4.—Two trunks supposed to belong to Samuel Turiss, suspected of kidnapping the Viviano children, for whom \$25,000 ransom was asked, are under police guard at the Adams Express office here. The trunks are consigned to Bernadette Lewis. No address is given. Lewis is not known. The detectives are trying to locate him. A telegram from Chief Cressy, of St. Louis asks them to open the trunks. Advice from the St. Louis police say the trunks may contain the bodies of the Viviano children. Instructions to "be sure to see the trunks are delivered," aroused suspicion. Express Clerk Board, says there is no odor from the trunks, but they are large enough to contain the children. One weighs 160 pounds, and the others 200.

THAW IS GUARDED SINCE AN AUTOMOBILE IS DISCOVERED

White Plains, Aug. 4.—When Thaw walked from the jail to the court house this morning surrounded by four deputy sheriffs, officials would give no reason. He often commented how easily he could escape. A mysterious automobile is waiting each morning as he passes by. This morning when it saw the increased guard it sped away.

Dr. Austin Flint, Jerome's alienist, took the stand this morning for Morchauser's cross-examination. He said Morchauser was sane before it was curable. Jerome explained that Flint meant the Thaw case is a different kind of paranoia.

Tobacco Sales Today.

Messrs. W. G. Head, of Madisonville, and R. E. Whaley, buyer for the E. J. O'Brien & company firm, of Louisville, are in Paducah today and going over samples of tobacco at the rooms of A. N. Veal, local salesman for the Planters' Protective association. There probably will be sales made this afternoon.

Might Have Been Fifty Thousand Dollars

REPORT OF PROFESSOR SMITH SHOWS IRREGULARITIES NOT PART OF SMEDLEY CHARGES

Money Paid Out of County Levy Fund, to Whom Registration Books Do Not Show

WHAT PROFESSOR JOHN D. SMITH FOUND.

- 300 warrants, written by Smedley, bearing fictitious names \$0,043.20
- Warrants with forged signatures and endorsements 1,297.35
- Warrants issued by Smedley without authority 3,501.45
- Bond warrants issued without authority 880.50
- Miscellaneous discrepancies 547.85
- Stolen during his term as deputy clerk 9,528.07
- Stolen during his term as county clerk 6,442.48

All warrants were forged in handwriting of Hiram Smedley.

During year, 1905, while Smedley was out of office, there were no forgeries.

Error of \$120.27 in accepting treasurer's report in 1904, allowed to stand by commissioners.

Warrants were issued for \$2,158.43, for which no orders could be found, but not included in forgeries.

Under present system, clerk, deputy or county judge could steal without detection.

Method of finance committee is no check against fraud.

Report of county commissioners on treasurer's report indicates no check against fraud.

Record of fiscal court order book, showing that registration of names and parties furnishing rooms in elections was made in cases charged to county fund, is not true. No names are registered.

Many warrants issued from written orders of county judge and never recorded in county order book, and never presented to the fiscal court.

"I have found forgeries and shortages aggregating nearly \$16,000," said Prof. John D. Smith, in making his report on the condition of the county's books to the fiscal court yesterday, "but it might be \$50,000; for all anyone can tell."

Warrants were issued without orders; for ten years forgeries were placed under the eyes of the members of the fiscal court and approved; warrants were issued without orders and without going before the fiscal court; orders supposed to be in the county order book were not recorded; money was issued from the county levy for the care of elections, and showing that the names of the parties were listed, when they were not. All the books show is that the taxpayers' hard earned money was spent in such a fashion that Prof. John D. Smith was moved to remark in his report:

"I cannot approve of the loose methods of handling the funds for the various purposes."

A recapitulation of the report follows:

I made a thorough examination of the accounts of all salaried county officers—holding office under the jurisdiction of the McCracken county fiscal court, from January 1, 1897, to and including June 30, 1909. I found that all of the officials had drawn their regular monthly and quarterly allowances or salary, in accordance with the orders as shown by the fiscal court order books, with the exception of H. T. Lightfoot, county judge. Instead of drawing his monthly allowances or salary, he would draw from time to time amounts to meet his demands, and make deposits in the county depository—placing same to the credit of the county levy fund, from which all warrants issued in his favor were charged.

After making an itemized statement of his account from January 1, 1902, to and including June 30, 1909, I found his account to be as follows: Total amount due him on salary from January 1, 1902, to and including June 30, 1909, \$11,525; total amount deposited by him, H. T. Lightfoot, as aforesaid, as shown by the books, and statement certified by J. C. Litterback, county treasurer, herewith filed (see supplement sheet No. 35) for \$3,675.45—making a total of \$15,200.35, making an overdraft of \$330.30. This, however, should be reduced, as you will find by referring to sheet No. 30 1/2, a statement showing warrants amounting to \$160 should not have been charged to his account, still leaving an overdraft of \$170.50.

I now call your attention to a supplement of my report made by H. T. Lightfoot, county judge, in which he makes protest against a number of warrants amounting to \$876 being charged against him. There is an error of \$177 in the addition of his statement, as the total of same only amounts to \$699 instead of \$876 (see supplement sheets Nos. 31, 32, 33, 34 and 35). Out of his statement I did not list against his account two warrants as follows: T. J. Moore, for \$25; H. T. Tyree, for \$40. I have also deducted as shown above, warrants amounting to \$160, leaving a balance amounting to \$407, which I feel satisfied should not be charged to his account and if I am correct in this would leave a balance due H. T. Lightfoot of \$236.50. However, I shall not assume the responsibility to say that he is entitled to a credit for \$407, and leave it to you to decide. For warrants see exhibit "H."

Sheets Nos. 29 and 30 contain a list of warrants amounting to \$2,158.43, which were issued during 1907 and 1908, for which no orders

County Will Proceed to Collect Smedley Money

McCracken county through its attorney, Alben Barkley, will in the next few days call upon the Title Guaranty and Surety company, of Scranton, Pa., the bonding company of former County Court Clerk Hiram Smedley, to make good the shortage of \$15,971.15, covering a period of 12 1/2 years. Failure of the company to reimburse the county will result in a suit to recover the amount stolen by Smedley while the company was on his bond.

Attorney Barkley stated this morning that he would proceed at once in an effort to make up the shortage. Smedley first began his forgeries and deceptions under the administration of Judge Bethshares, then the county judge. At this time Smedley was in the capacity of deputy county court clerk, where he remained for eleven years, being under Judge Tully. He served under Mr. Fisher

and Charles E. Graham and was afterwards chosen clerk. In relating the first discovery of Smedley's wrongdoings, Attorney Barkley said that at every session of fiscal court he called upon Smedley to report the collection of back taxes, but he said he had collected none. In May, 1908, Smedley reported collecting \$238, which led to an investigation forcing him to resign from office. Smedley did not record his collections on the regular book, but put them in a private cash book, which was not known to the county officials and was inaccessible.

On his resignation he turned over the private book and the shortage of back taxes was found, amounting to \$1,582.50. This was at once recovered from the Title Guaranty and Surety company. There was nothing agreed upon between the county and company as to liability for any other shortages.

It will be a stupendous undertaking to figure out the many suits that will have to be brought for the recovery of the full amount. As the bonding company was only on for Smedley's term as county court clerk for four years only, the amounts stolen by him in that length of time can be recovered only from the company.

Euchre on the Belle.

The young society ladies gave a delightful euchre party on the steamer Belle Owen this morning, and quite a delightful time was spent. Mrs. Paul Province won the prize. Those in the party were: Mesdames Herbert Martin, Paul Province, Andrew Campbell, D. D. MacMillen, David Koger; Misses Elizabeth Boswell, Ellen Boswell, Catherine Quigley, Manie Cobb, Hazel McCandless, May Owen, Sadie Paxton, Fred Paxton, Florence Cobb, Alice Cabel, Eloise Bradshaw, Rosebud Hobson, Elsie Hodge, Hallie Hisey, Nell Shaw, Alma Kopf, Elizabeth Seebree, Brooks Smith, Carrie Trueheart, Lucette Soule, Alma Higgins, Mary Scott, Lillie Mae McGlathery, Mattie McGlathery, Katherine McFarland, Dorothy Langstaff, Mabel McNichols, Belle O'Brien, Nella Hatfield, Lily Hobson, Corinne Winstead.

MEETS DIAZ AT EL PASO.

President Taft Has Arranged Meeting for October 18.

Washington, Aug. 4.—President Taft of the United States and President Diaz of Mexico are to meet at El Paso, Tex., Oct. 18. This program has been arranged as the result of correspondence between the United States and Mexico. The president will be attended by his secretary, military attaché and several friends, who are to accompany him on his western trip.

City of Chicago Seeks Arbitration of Strike

Chicago, Aug. 4.—B. E. Shadley, of Galesburg, chairman of the state board of arbitration, and Harry M. Powell, member from Peoria, are here to attempt to adjust the strike situation by arbitration. Mayor Hesse asked the board to act last night. The board does not act unless asked by one party to the dispute. The mayor considers the city a party.

President Fitzpatrick, of the Chicago, federation of labor, said today that members of his federation are unanimously backing the street car employees. The Chicago City Railway company today made a contract with Edward L. Reed, "king of strike breakers," to furnish 5,000 strike breakers at an hour's notice should the strike occur. Reed confirmed it by saying the 5,000 men are already in Chicago.

Announcement was made at Mayor Busse's office this afternoon that George Shipley, chief of police, had sent in his resignation to the mayor. He has been in poor health several months and is now on an indefinite furlough. The chief has concluded he can never regain his health. Bernard J. Mullane, secretary to the mayor, probably will succeed him.

THE GRACE DARLING OF AMERICA RESCUES MORE.

Newport, R. I., Aug. 4.—Ida Lewis 61 years old, the "Grace Darling" of America, added five more to the 18 lives she has saved on Lime rock when the steamer Commonwealth rammed a rowboat yesterday, containing five young men who could not swim. Hearing their cries she set out in her life boat, the "Itasca," saving them. She refused to tell their names, but the deed. She has been in the lighthouse 30 years, succeeding her father. She is decorated with medals from America and foreign governments.

Mrs. Whifrey B. Harris left Tuesday afternoon for Fulton to visit.

DEMOCRATS OUSTED AT LEXINGTON

CIRCUIT JUDGE DECLARES ELECTION DISGRACE TO STATE.

CARRIED BY FRAUD AND BY INTIMIDATION.

Lexington, Ky., Aug. 4. (Special.)—In a sensational opinion of the Fayette circuit court, Judge Watts Parker today declared the city election of 1907 null and void, thereby ousting from office Democratic Mayor John S. Kain, City Assessor John Doyle, City Jailor Masner and City Attorney Wallace Maurer. He said the election reeked with fraud and intimidation. The purchase of negro registration certificates was carried on by police and detectives, Democratic office holders and office seekers. Hundreds of people were deprived of the privilege of voting because of manipulation of voting precincts by Democrats. He sustained practically all the sensational charges made by the Republicans, declaring the election a disgrace to Kentucky.

ADD-lead Special. 123456 89

The contest was instituted by Republicans against all the city officials but owing to the difficulty in securing proof in many cases, it was later dropped, except as to the four men ousted today.

An appeal will be taken at once. When the appellate court passes on the case, if Parker is upheld, the city council will select new officials to serve until the election.

Atrocious Crime.

Bowling Green, Ky., Aug. 4. (Special.)—Mrs. Charles Rhinehart while in her home alone near town, was assaulted by a negro who cut her throat and face and escaped. Mrs. Rhinehart will live. The guilty negro is believed to have been captured.

Gov. Johnson Held Over.

Louisville, Aug. 4. (Special.)—Adjutant General Johnston, at his ex-auditing trial today for assaulting Editor Denny B. Goode, of the Forum, was held over to the grand jury on a charge of assault and battery. His bond was fixed at \$100. He was released on his own recognizance.

Fire at Mayfield.

Mayfield, Ky., Aug. 4. (Special.)—Fire which originated early this morning in the finishing room of Breisford's photograph gallery, damaged the gallery, the Elk's hall and the building of the Graves County Bank and Trust company \$3,000. The firemen did excellent work. The loss is roughly appraised: Bank, \$4,000; Elks, \$1,000; photograph gallery, \$2,000.

Night Rider Cases.

Murray, Ky., Aug. 4. (Special.)—The night rider trials will commence tomorrow morning at 10 o'clock. Jake Ellis probably will have another trial and several will be taken up in order. The grand jury has indicted several, but made no report yet.

New Revenue Agent.

Frankfort, Ky., Aug. 4. (Special.)—Auditor James has appointed Earl G. Huntsman, of Scottsville, state revenue agent at large, to succeed the late Revenue Agent Anderson, of Mayfield, for the western part of the state.

Blind Evangelist Dies.

Metropolis, Ill., Aug. 4. (Special.)—The Rev. Casper Cummins, the blind evangelist, died here last night after a two years illness of paralysis. He was 83 years old. He was stricken while in the pulpit in the southern part of this state. He will be buried tomorrow afternoon at 2 o'clock. The Rev. Mr. Adams, of this city, and the Rev. R. W. Chiles, of Paducah, will officiate.

Metropolis Boy Held for Murder.

Metropolis, Ill., Aug. 4. (Special.)—Sidney Baker, formerly of this city, is under arrest at Belleville, Ill., charged with the murder of a farmer of the name of Waltz, who was found dead in the steps leading to Baker's photograph gallery after the two had been on a spree. Baker left, and Miss Culp, a drug clerk, who had sold Baker some morphine a short time before, went west on her honeymoon and found a man, answering the description of Baker, conducting a photograph gallery at Silver Plume, Colo. She induced the man to have his picture taken with her, and sent it back to Belleville, where it was identified. Baker's father and mother, photographers, live in this city, and Mrs. Baker has gone to see her son. Miss Culp will receive \$500 reward for Baker's arrest.

HEALTH BOARD

TAKES UP QUESTION OF DISPOSING OF CARCASSES.

Dr. H. P. Sights Says That Sewer District No. 3 Is Badly Needed.

Dr. H. P. Sights, city health officer, recommended yesterday afternoon to the board of health that a sewerage system be built in district No. 3. He said it was badly needed and would include residents of Fountain avenue and the northwestern and north sections of the city. The estimate of the work he gave as \$400,000. No action was taken.

William Bradshaw, Jr., was appointed to investigate from the government if the city would be held responsible if individuals dumped carcasses into the river. The government forbids the dumping of dead animals in the river.

The question of draining and filling Little's pond near the Union depot was referred to the general council.

Dr. Sights complimented the newspapers for taking such an active part in helping clean the city.

Quorum Failed at the Board Meeting Last Night—Will Meet Tuesday.

ANNUAL REPORT TO BE READY

An important meeting of the school board was postponed until next Tuesday night, because the trustees failed to make a quorum at the high school building last night. President HHS and Trustees Clements, Treadway and Nicholas only were present and the four waited patiently for more to come. They waited until 9 o'clock, when the meeting had to be called off to its duties of the pressing business that should have been taken up.

Superintendent J. A. Carnegie was to have read his annual report, showing the progress of the schools during the past year. Another important item was that of letting the contract for the repairing of the school clocks. In order that they might be ready for the opening of school in September. The committee was instructed by President HHS to proceed and bring in recommendation by next Tuesday and the work would be disposed of.

Secretary Sutherland had the report of the finances of the schools ready to be submitted. The report would show a balance of \$1,448.58 in the bank and no debts hanging over the heads of the trustees. However, the schools will be compelled to borrow enough money this coming year to pull them through. The city has already turned over to the school fund about \$12,000 in taxes while a large amount will be received from the state fund this year. The first payment probably will not be made before November, as the first payment last year was not made until November 7. The schools will receive more from that fund this year because of the increase of the amount allowed for every school child.

The electric buzz system has been installed in the high school at the Washington building and working satisfactorily. It will do away with the expense of clocks for every room of the school and the time will be announced by the teacher in charge of the study hall pressing the button.

Artificial Daylight.

"One of the simplest things to represent on the stage, one would think is daylight," says an Italian named Fortuny in the Theatre Zeigung, "and still its accomplishment has always baffled managers. Our daylight does not come from one point, but from all directions, and this light, as from the sky, is what has not yet been produced. The difficulties, however, have been overcome, and on the stage of the new Royal opera house at Berlin the stage daylight of my invention will be seen when that house is completed. The effect is produced by electric light, mirrors, prisms and silk cloths of various colors, through which the light is made to stream."

When it comes to setting up the score there is nothing more expensive than the wedding presents you received.

THE NEW WOMAN.

Made Over by Quitting Coffee. Coffee probably wrecks a greater percentage of Southerners than of Northern people for Southerners use it more freely.

The work it does is distressing enough in some instances; as an illustration, a woman of Richmond, Va., writes:

"I was a coffee drinker for years and for about six years my health was completely shattered. I suffered fearfully with headaches and nervousness, also palpitation of the heart and loss of appetite.

"My sight gradually began to fail and finally I lost the sight of one eye altogether. The eye was operated upon and the sight partially restored, then I became totally blind in the other eye.

"My doctor used to urge me to give up coffee but I was willful and continued to drink it until finally in a case of severe illness the doctor insisted that I must give up the coffee. As I began using Postum and in a month I felt like a new creature.

"I steadily gained in health and strength. About a month ago I began using Grape Nuts food and the effect has been wonderful. I really feel like a new woman and have gained about 25 pounds.

"I am quite an elderly lady and before using Postum and Grape-Nuts I could not walk a square without exceeding fatigue, now I walk ten or twelve without feeling it. Formerly in reading I could remember but little but now my memory holds fast what I read.

"Several friends who have seen the remarkable effects of Postum and Grape-Nuts on me have urged that I give the facts to the public for the sake of suffering humanity, so, although I dislike publicity, you can publish this letter if you like."

SMITH REPORT

(Continued from Page One.)

of \$2,158.43 is not included in the statement of shortage, but presented to you to determine whether or not they were properly issued. For warrants, see exhibit "Q."

Criticisms.

In conclusion, I wish to make the following comments and suggestions: First, I wish to say, under the present system governing the issuing of warrants—that any reasonable number of warrants could be issued and applied to the private use of a dishonest and unreliable clerk, or deputy clerk—and could be extended to the county judge—provided they felt disposed to combine for such purpose. The system now in practice, has no doubt been the same for 25 or 30 years or longer, but the system is wrong and should be corrected.

Second, The method through which the finance committee takes action and recommends allowances and the method of issuing warrants, is no safeguard, whatever, against fraud being committed upon the part of the clerk or deputy clerk. Fraud through this channel could be committed by the clerk and the payees together, or the clerk alone. This has been detected and fully exposed in my report.

Third, Whenever the county

treasurer makes his report to the fiscal court showing a statement of the deposits and withdrawals, etc., there appears on the fiscal court order book, the following: "This day came county commissioner, and presented his report of settlement with _____, treasurer, from (date to date), on account of the county levy fund, showing vouchers amounting to \$ _____, and a balance (or overdraft) of \$ _____, which report was upon motion received, concurred in and ordered recorded and the vouchers filed."

In going over the 12 1/2 years' work, the above form of a report is the only thing I could find in the way of an audit for the warrants issued, which simply amounts to nothing in the way of a check against fraud. Such an audit and form of a report, when known to a dishonest clerk or deputy clerk, simply opens a way for fraud. From the above report, the county treasurer, could at any time make his report of warrants cashed—say 200, of which 75 of them were properly issued and the other 125 were bogus warrants, the commissioner would not be able to detect a single one of them. The report of my investigation will bear me out, as nearly every report that has been made for the past ten years of the county levy fund, contains forgeries that were committed, and not a single one was ever detected.

No Register of Names.

Fourth, There appears on the fiscal court order book from year to

year a form of a motion as follows: "Upon motion of registration of _____ date, and parties furnishing rooms for same, were allowed \$2.00 each, payable out of the county levy fund."

I failed to find any record or register containing a list of names and addresses of those who are entitled to warrants under the instructions of the above order. So, from the above order the clerk or deputy clerk is at liberty to issue warrants to such parties—allowing so much extra for mileage, as he may desire. In my investigation, I found a number of warrants issued from the above order from \$2.00 to \$4.00, and whether or not they were properly issued, or some of them bogus warrants—no one will ever be able to decide. Calling County Commissioner, J. H. Burnett's attention to same—we simply accepted and supposed that they were properly issued. Such method opens a way for fraud.

Fifth, From May, 1907, to March, 1909, I found quite a number of warrants issued from written orders of R. T. Lightfoot, county judge, and same were never recorded on the McCracken county order book, or any other order book, and as shown by records of the fiscal court books they were never presented to the fiscal court for approval. Upon making inquiries as to such a careless way of doing business—I was informed by Miss Lizzie Edgington, deputy clerk, that H. Smedley, former county clerk, had instructed her not to record the or-

ders. I also found that H. Smedley had issued quite a number of warrants for which there were no orders of any descriptions. This is certainly a very careless way of conducting the county affairs and should not have been tolerated.

Loose Methods.

Sixth, I can not approve of the loose methods of handling the funds for various purposes with no open accounts as shown by the records. Should a committee, as representatives of the taxpayers of McCracken county—at the present time, desire to make an investigation pertaining any special account, such as loans, roads, bridges, buildings, improvements, salaries, etc., they would have to employ any expert to go through the records and dig up same. So there should be a ledger with an open accounts with the different funds, loans, salaries and the various contracts that may come up with proper credits for value received and charges made as warrants are issued and vouchers for warrants filed. From the ledger a quarterly balance sheet should be rendered to the fiscal court, and same published in the daily papers. This would restore the confidence of the taxpayers and place the records of the fiscal court in a shape at all times for the inspection of any who may desire to investigate same, and prevent such a state of affairs as we are now contending with.

It is easier to renew a good resolution than a promissory note.

INTERNAL TRADE

BUSINESS HANDLED INSIDE THE UNITED STATES.
June Report of Bureau of Statistics On Interstate Commerce

Washington, Aug. 4.—Improved conditions in railway traffic and in the movements of coke and iron ore are characteristics of the June internal commerce report of the bureau of statistics of the department of commerce and labor. The live stock, grain and provision movements show a decrease in volume compared with the figures of the corresponding months of last year, and the extreme activity in building which characterized the reports of the earlier months of the year shows some signs of abatement.

Livestock receipts during the month at seven interior primary markets, 2,952,824 head, show a considerable decrease as compared with like figures for June, 1908 and 1907, 3,258,861 and 3,292,033 head.

The June shipments of packing house products from Chicago, 185,665,090 pounds, were likewise smaller than the June, 1908 and 1907, figures of 204,823,303 and 191,089,115 pounds.

Grain receipts in June at 15 leading interior markets aggregated 43,423,955 bushels, compared with 43,644,917 and 64,650,970 bushels reported for June, 1908 and 1907. Of the total receipts 6,551,372 bushels was wheat, 18,926,628 bushels corn, 12,583,494 bushels oats, 4,035,551 bushels barley and 326,910 bushels rye.

Grain and flour receipts during June at the four leading Atlantic seaports totaled 8,951,111 bushels, compared with 11,375,318 and 16,868,093 bushels recorded for June, 1908 and 1907.

Coastwise receipts of southern pine lumber at New York, 49,115,066 feet as well as the total lumber receipts at Boston 37,600,352 feet, show the largest monthly figures for the season and by far exceed the June, 1908, figures.

The June shipments of bituminous coal over eight of the leading eastern coal carrying roads, 5,911,711 tons, compare favorably with 6,988,001 tons transported during June, 1908. The coke traffic in June over these roads, 1,921,451 tons, shows the largest monthly total for the year and exceeded by 75 per cent the quantity reported for June, 1908.

The monthly wool receipts at Boston, 47,373,365 pounds, were almost double the June, 1908, receipts, both the domestic and foreign wools showing in the increase. Shipments of wool during the month, 16,204,487 pounds, were below those reported for June, 1908.

Building operations in 87 leading American cities, as measured by the value of permits granted, show a total of \$55,123,205, which is 17 per cent less than that reported for May of the same year, though still 11 per cent larger than the June, 1908, total.

General traffic activity on the railroads during June, as shown by the number of cars handled by 33 car service associations and demurrage bureaus, 2,514,751 cars, shows a slight improvement as compared with the May results. The increase in the number of cars handled during the month as compared with the number reported for June, 1908, is not less than 15 per cent.

Soldier Bulks Death Plot.
It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." ARGUMENTS HEARD

TENNESSEE LIQUOR LAW TEST CASE COMES UP.

Two Points in Controversy Before United States Judge McCall at Memphis.

Memphis, Tenn., Aug. 4.—Arguments on the motion to remand to the state court the injunction proceedings brought by stockholders of the Tennessee Brewing company against John W. Schorr and the city and county authorities to test the constitutionality of the law prohibiting the sale of the products of the manufacture of intoxicating liquors within the state, were begun this morning before Judge John E. McCall in the United States court. The controversy simmered down to two points made by Attorney E. E. Wright. He contended that the question first involved is whether the liquor law is a violation of the state constitution. Should the state court decide it was then the federal court would not possibly have any jurisdiction, and the case was ended. If this point is decided against them, Mr. Wright stated it would then be remanded to the federal court unless all the parties agreed. He quoted from a decision made by Judge McCall himself to uphold this point. Both points were contested by the opposing counsel.

PETER PURYEAR,

Notary Public McCracken Co.
My commission expires January
10, 1912.

Daily Thought.

Eternity, which cannot be far off,
is my one strong city.—Thomas Car-
lisle.

If the county almshouse is to have
a tuberculosis ward, it is proof that
Mrs. Crane's criticism of the policy
of keeping the other inmates with
sick and dying consumptives has
gone home.

The wedge State Auditor's Agent
Will Husham drove in, when he
sued Hiram Smedley in behalf of the
state, has resulted in exposing what
Professor Smith calls "A very care-
less way of handling the county af-
fairs," to say the least.

AN INTOLERABLE CONDITION.

If one were to judge by the emul-
sated version of Prof. John D.
Smith's report on the condition of
the county books, as published in the
News-Democrat this morning, accom-
panied by an editorial on the subject,
its Sunday prediction that Professor
Smith's report would reflect great
credit on the county administration
is fulfilled in the fact that no one
was caught stealing, excepting poor
Hiram Smedley.

But Professor Smith did not do
that far, nor did he content himself
with simple criticism of the system
of bookkeeping. At the outset, be-
fore beginning to read his report,
Professor Smith said \$50,000 might
have been misappropriated for all he
or anyone else could tell. He at-
tributed to Hiram Smedley only those
amounts which could be traced to his
fraud and forgery. Other thousands
of dollars were irregularly paid out,
and whether the money went for
honest purposes and the officials
were gully of carelessness, or
whether the money went for graft,
there is nothing to show. For in-
stance, money in sum of \$2 and
\$4 was drawn from the county
levy to pay for registration. The
order book said the money was ap-
plied in accordance with names in
the registration book. That entry is
false. The names do not appear.
Money was drawn on the county
order blanks and never recorded in
the order book; warrants were issued
and money paid and never submitted
to the fiscal court; the county com-
missioners allowed errors to go
through in accounts commissioners
reported to the fiscal court as cor-
rect, and Professor Smith said he
was told they assumed things
were honestly done. It is significant
that Professor Smith found that
nearly every county levy fund re-
ported and approved in the last ten years
contained forgeries and they never
were detected.

It is not the system of bookkeep-
ing that is at fault, when a county
officer, instead of drawing his salary
regularly, draws as he requires,
places the money to the credit of the
county levy fund in the county de-
pository against which he issues war-
rants. The tax administration in that
was confusing personal funds with
the county's funds in the depository.
Professor Smith's criticisms—
"That is certainly a very careless
way of conducting the county affairs"

and "I cannot approve of the loose
methods of handling the funds,"
are not necessarily confined to the
method of bookkeeping; for his re-
port shows that the books were not
kept, according to the system adopted.

County officials may have been
honest, but careless or ignorant. The
books do not show which. That Pro-
fessor Smith did not charge anyone
with theft or graft, does not imply
that he exonerated them. There was
neglect of duty on the part of the
men, who handled the taxpayers'
hard earned money, and theft on the
part of at least one of them and
officials other than fiscal officers are
at fault for not compelling legal
methods. One would expect an honest
official to be so jealous of his honor
that he would be overly particular
that the county books should show
exactly how every penny went. It is
not even a mitigation in this instance
to say that a hundred other county
court clerks in Kentucky stole and
were not detected until the state ad-
ministration changed and a new set
of auditor's agents took the field.

The taxpayers' money was stolen.
How much we do not know. We only
know that in the absence of direct
proof of graft, an expert accountant
sharply reproved the officials for their
"careless way of conducting the
county affairs," which "should not
have been tolerated."

Will the taxpayers tolerate it
longer?

SOME STORIES AROUND TOWN

Here is one that was told on Coun-
cilman Wilson, who was charged by
Councilman Flowers, if not with
actual chicken abduction, at least
with indiscretion. At the last meet-
ing of the council in July Mr. Wilson
went to the session. He left notice
at home for his son to bring his
buggy down to the city about 9:30
o'clock, when the meeting was likely
to be adjourned. After the meeting
Mr. Wilson descended the city hall
stairs and found his rig waiting for
him. It being early he decided to
drive over the city and drove several
miles before starting for his home in
Mechanicsburg. When the road home
was about three-fourths traversed
and Mr. Wilson was driving slowly
suddenly he heard a fluttering under
his buggy. Stopping the horse he got
down and took a peep. There sat
two fine fowls perched on the pole of
the rig. Seeing that they were safe
he continued and when he arrived
home he found out that he had taken
a neighbor's property out riding. The
chickens had perched themselves on
the cross pole of the buggy to roost.
Councilman Bowers, who is authority
on "chickens and their habits," ex-
plained that when a chicken sits
down its feet become locked and do
not unlock until it arises. The
chickens enjoyed the ride as much as
did Councilman Wilson.

New Orleans, La., July 29, 1909.
Hon. Augustus E. Willson, Governor
of Kentucky, Frankfort, Ky.

Dear Governor: At a recent meet-
ing of the Kentucky society of Louisi-
ana I had the privilege as a member
of its governing board to present a
resolution, providing that the legisla-
ture of the state of Kentucky, through
your kindly offices as chief ex-
ecutive, should be asked to set

Judge Duffelle is Not Worried

"I have no information that would
lead me to believe that I will be re-
moved from office," said Judge Du-
felle, who is district attorney, when
asked if the report from Wash-
ington that he was to be succeeded
by J. C. Speight, of Mayfield, was
true.

"I have noticed several rumors
published in the newspapers within
the past few weeks," said Judge Du-
felle, "but I have received no defi-
nite information concerning my suc-
cessor. My term lasts until next
June, but the president has a right
to name my successor—which means
my removal—at any time.

"I have not thought seriously about
these reports. I am not on bad terms
with the administration and will let
the matter take its course."

Judge Duffelle was appointed three
years ago last June. Mr. Speight is
a member of the Mayfield bar and an
influential politician in his section of
the state.—Louisville Herald.

THE PUBLIC FORUM.

The Cradle of Democracy.

Therefore it will be well for one
who desires to see the wheels of the
American government go round, to
look at the power that makes them
go. "The American people," says
President Butler, of Columbia Uni-
versity, "are almost Socratic in their
acceptance of the principle that
knowledge will lead to right and use-
ful action, and if the formula be not
pressed too far, the American con-
viction is to education, is quite de-
fensible." At least it will not be
pressing the formula too far to main-
tain that if education produces the
power that makes the demagogue, it
also makes the people who won
grow weary of him; and therefore
we may argue that whatever sub-
stantial growth there has been in
our institutions—and one must ad-
mit that they have grown, even if
presidents and most of our senators
are now chosen by a direct vote of
the people—this growth has come
because the people have broadened
their moral vision by reason of their
widening information. Schools have
disseminated knowledge; knowledge
has directed the normally uneasy Pur-
itan conscience; the people have
grown powerful in so far as they
have grown just. And the net in-
come from our annual investment of
half a billion dollars in education
may be reckoned in terms of justice.
So let us go to the account, and look
at the books. To begin let us con-
sider the gross liabilities; those

who have come into a somewhat
wider field of knowledge than that
afforded by the common schools. Let
us add to them for thirty years the
three-quarters of a million pupils
who, according to the report (p.
525), complete the work in the sev-
enth or eighth grade of the elemen-
ary schools. There will be 22,400,
000 of them. Now adding all these
sums—allowing for the increased in
population to increase the number of
youths as the years go on—and we
have about fifty million Americans
who have remained in school into the
midst of their teens—something like
two-fifths of our population in the
next thirty years. This is not enough.
Democracy may live, but it cannot
thrive upon that basis. If we are to
solve the problem of the century—the
restriction of ignorance and greed
in our business organization—we
must solve it in the school house
rather than in the legislature or in
the court room. So long as there is
a body of the people ignorant, that
ignorance will breed a greed that
will be duped by demagogues, and al-
ways the greed equipped by ignor-
ance will outwit greed equipped by ignor-
ance. The problem that this nation
has solved have been for the most
part simple problems. They are prob-
lems in the production of wealth. It
is true that the abolition of slavery
concerned the distribution of wealth.
It was simple subtraction, but to deal
justly with capital in its public uses
to what is the individual's share in
the public partnership and what is
the share of the common wealth—that
is long division—a problem of
distribution. And most of our na-
tional problems now pending are
problems of distribution, wherefore
if we are to do these complex prob-
lems of distribution, as a nation, at
least we must get into the eighth
grade. Perhaps the average now is
nearer the sixth than the eighth.

The Years a Boy May Waste.

As conditions now exist there
comes into the life of the average boy
or girl four or five waste years—the
years between thirteen and eighteen.
These waste years hold in them the
real dangers of our democracy. For
out of school the boy at least is
worthless.

And yet ten millions of fourteen-
year-old boys and their sisters—who
are really worth something—are out
of school in America today. Partly
they are out for economic reasons,
the family needs their support; but
the state needs a clear mind in the
ballot booth seven years later, worse
than the family needs support, and
might well afford to pay the family
the grand boy's meager wages. But
apart from economic forces which
keep the boy out of school during the
waste years of his life, there are so-
cial reasons why he is not in school.
And those social reasons are his stud-
ing with his teachers in school.
Generally speaking, the fault is with
the school rather than with the boy.
Certainly the fact that five millions
of boys in their early teens do leave
school unnecessarily is a fact worth
considering in making up a curri-
culum. And if the facts and laws are
driving the boy from school, the na-
tion is the loser. Therefore the in-
stinct of the boy for physical educa-
tion as well as for mental training
should be heeded. The boy longs for
manly things. He craves the com-
pany of men and their roughness. He
desires to do something—to see some
thing growing under his hand. It is
instinctive, and the most hopeful
thing in our democracy is not the
growth of the secret ballot, the
cleaned party, the direct nomination
and direct legislation, but the vague
and definitely growing recognition
that the boy's instinct for practical
education in his school is to be trust-
ed. The almost universal introduc-
tion of manual training in some form
into the lower grades of American
schools—giving the boy opportunity
to work with his hands—is one of
the most important symptoms of so-
cial health in our political organiza-
tion.

The extent of the growth of man-
ual training in the country is surpris-
ing. Within ten years—coincident
with the other big democratic move-
ments—manual training has spread
to the schools of almost every Ameri-
can state. Typically manual training
begins in the sixth grade, when the
pupils are coming into their teens.
It continues through the eighth
grade, and there in the larger of our
American cities manual training is
diverted into a separate building
from the regular high school.

This is known as the manual train-
ing school. There boys are taught
to use their hands in woodwork,
stonework, brickwork, ironwork,
clay work of various kinds, and girls
are taught domestic science. But
these schools must not be confused
with the grade trades schools that
are being established in the cities of
the land and in the manufacturing
districts. The manual training
schools do not teach the boys trades;
they merely teach

Cancer Our Worst Scourge.
New York, Aug. 4.—One man in every thirty-two, and one woman in every eleven die from cancer in this country, according to Dr. Milton K. Foote, consulting physician to the New York Skin and Cancer hospital. "I have no hesitancy in declaring cancer the worst physical scourge with which we have to contend today," said Dr. Foote in an interview. "Cancer is far more dreaded than tuberculosis, for although the death rate from cancer is not yet so great as that from tuberculosis, it is steadily on the increase, while the great white plague has been partially controlled."

YES! MONEY BACK.

Parisian Sage, the Hair Renewer, is Now Sold in American on Money-Back Plan.

Tried them all and failed, thousands of people will say. Try the real Parisian Sage and succeed. No thousands have done.

In Paris Dr. Sabourand discovered the dandruff microbe and the way to destroy it.

In Paris women have most abundant, beautiful, lustrous and fascinating hair.

They know about hair and its diseases in Paris, far more than we do. They have institutions where the study of the hair is made a specialty.

Parisian Sage is the only certain destroyer of the dandruff microbe which is the cause of 97 per cent of hair troubles.

These pernicious, persistent and destructive little devils thrive on the ordinary hair tonics.

Parisian Sage is such an extraordinary and quick acting rejuvenator that Gilbert's drug store, who is the agent in Paducah, guarantees it to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

Parisian Sage is most daintily perfumed; it is an ideal preparation, not sticky or greasy.

It is a magnificent dressing for women who desire luxuriant lustrous hair that compels admiration, and nothing is so good to keep the head cool and free from odors in summer.

And a large bottle of Parisian Sage costs only 50 cents at Gilbert's drug store and at leading druggists all over America.

The girl with the Auburn hair is on every package. Made in America by Gironx Mfg. Co., Buffalo, N. Y.

and Mrs. James Foster, of South Fifth street.

Mrs. William Johnson and niece, Miss India Lang, left today for a ten days' journey at Dawson Springs.

Mr. Rolia Buchanan, the prominent banker of Gage, is in the city.

Mrs. C. R. Brower left this morning to visit relatives in Mayfield.

Messrs. Sam Foreman and Roy Gresham were in Mayfield yesterday.

Mrs. W. W. Powell left this morning for Louisville.

Misses Emma and Anabel Acker went to Dawson this morning for a few days' sojourn.

Mrs. H. J. Shelton left this morning for Russellville to visit relatives.

Mrs. C. P. Lenotham, Miss Johanna Lenotham and Miss Carmen Andrews, of Wickliffe, are visiting in the city today.

Messrs. Richard Ashbrook and Herbert Hawkins returned home this morning from an extended visit to Denver and Los Angeles. They attended the Elks' convention at Los Angeles.

Miss Lucille Potter is the guest of Miss Mary Hunt at Mayfield.

News of Theatres

That the excellent attractions presented at Wallace park are pleasing the people is evidenced by the large crowds in attendance each night this week. The pictures being presented are unusually fine, and the juggling act of Sats Zaroni is a most attractive feature. New pictures are presented tonight and the usual two performances will be given, at both of which Sats Zaroni will appear in new feats. Tomorrow night the Casino will be given over the Woman's club for a grand concert under the direction of Mr. Henry Gilbert.

TRAGEDY IN ATLANTA HOTEL.

Steward of Aragon Shot Outside Door of Married Woman.

Atlanta, Ga., Aug. 4.—Michael P. Anderson, steward of the Aragon hotel, was shot and seriously wounded on the fifth floor of the hotel late this afternoon by William White, of Nashville, Tenn., a traveling man, who, with his wife, was a guest at the Aragon. Mr. and Mrs. White were taken to the police station and Anderson to a hospital.

Anderson has not been able to make a statement. The shooting occurred just outside the room which Mr. and Mrs. White have occupied for several months past.

From the police station Mrs. White sent the following note to Anderson at the hospital:

"I sincerely regret this horrible accident, and truly hope you are not seriously hurt. I am now at the station for what I know not."

White declined to make a statement until after he had consulted an attorney.

Before being operated on at the hospital, Anderson made a statement which was sworn to in the presence of officers. While no part of the statement was given out it is other than Anderson asserted that the shooting was deliberate. The shooting involves Mrs. White, and I was under the doctor's care for some time. I finally was relieved sufficiently to be able to return to my work but I was far from being well.

Having Don's Kidney Pills brought to my attention, I began their use and they soon relieved the pain and lameness in my back. I heartily recommend this excellent kidney medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

DON JAIME NO TREBEL.
Says His Only Fighting Will Be to Restore Order.

Vienna, Aug. 4.—Don Jaime, the pretender to the Spanish throne, declared in an interview here that he had no intention of interfering in the present crisis in Spain, and that his retirement to Frohsdorf, in Lower Austria, far from the Spanish frontier, was proof of his purposes.

"The Carlist party is a party of order," said Don Jaime. "I never will take upon myself to bring an entire people into danger for my own ends. Never will I lead Spaniards against Spaniards. Should I return to Spain at the head of an army, I would be only to restore order. This night happens, should the revolutionaries drive out King Alfonso or the welfare of the country require it."

"The popularity of King Alfonso is declining through no fault of his own and Queen Victoria is certainly less liked than the king. Spaniards dread foreign influence. Victoria has remained a stranger too long, and the people will never forgive her."

Don Jaime is of the opinion that the war in Morocco was unavoidable and he fears that it will last a long time.

WORK WEAKENS THE KIDNEYS.
Don's Kidney Pills Have Done Great Service for People Who Work in Paducah.

Most Paducah people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood.

Don's Kidney Pills cure sick kidneys, put new strength in bad backs. Paducah cures prove it.

While no part of the statement was given out it is other than Anderson asserted that the shooting was deliberate. The shooting involves Mrs. White, and I was under the doctor's care for some time. I finally was relieved sufficiently to be able to return to my work but I was far from being well.

Having Don's Kidney Pills brought to my attention, I began their use and they soon relieved the pain and lameness in my back. I heartily recommend this excellent kidney medicine."

FOR EVERY HOUSEKEEPER

Easy Way to Rid the House of Cockroaches, Rats, Mice, Etc.

It is the easiest thing in the world to rid the house of rats, mice, cockroaches, waterbugs, etc., by using the old reliable Stearns' Electric Rat and Roach Paste, which has been on the market for thirty years.

It is ready mixed for use and as it is in paste form, there is no powder to blow away and get into food.

See that every package bears the signature of J. J. Kearney, and then you will get the genuine; the only guaranteed exterminator, the only one where your druggist will refund your money if it does not do the work.

Apply Stearns' Electric Paste at night, in sinks, pantries, etc., and in the morning you can sweep up a painful lot of dead cockroaches.

Use it where there are rats and mice, and after eating it, they will run out of doors to die.

All reliable druggists sell Stearns' Electric Paste: 2 oz. box 25c, 16 oz. box \$1.00, or sent express prepaid. Stearns' Electric Paste Co., Chicago, Ill.

ASK THAT UNION LABOR BE USED

IN BUILDING FIRE STATION AND THIRD STORY.

Central Labor Union Presents Matter Before Committee of General Council.

IS LEFT TO THE ARCHITECT

A communication from the Central Labor Union of Paducah was read before the joint finance and public improvement committees of the general council, asking that union labor only be used in the construction of the third story for the city hall and the new fire station for the central fire department, to be built adjoining the city hall on the site where the city engineer's building stands.

The communication was received, but the committees instructed Architect A. L. Lassiter to use union labor only where practicable. The committee will not order union labor alone for the reason that it might jeopardize the city's interests and show prejudice. In case of union strikes the city would be delayed in the construction of both pieces of work. However, Mr. Lassiter will accept labor union if he thinks best. Architect Lassiter submitted the plans for both the third story for the city hall and also for the fire station. Both were gone over carefully by the committees and approved. They instructed Mr. Lassiter to proceed immediately in drawing up the specifications and to advertise for bids at the earliest date possible. The city will rush the work in order to have the city hall and fire station completed in the early fall. As soon as the specifications are drawn and bids and contracts awarded the city will immediately sell the present quarters of the central fire station.

PUBLIC FORUM

Continued From Page Four.)
are in their teens, and the prevalence of women teachers in the sixth, seventh and eighth grades and in the high school has driven more boys from school, and made bad citizens to make bad government, than we realize. Of course, these manual teachers cost money; they make schools more expensive, but according to the report of the United States commission of education the increased cost of maintenance in the seventh and eighth grades has been met by an increase in attendance. It seems to be largely a question of how good a citizenship we are willing to pay for.

And that brings us up to the problem of the boy and his teacher. The boy goes to the pool room and the saloon primarily because there he finds men. At school he is sufficed with femininity. Given men teachers for the boy after he gets into his teens, an able boy will not be so likely to leave school as he is. But teaching is a profession that men use as a stepping-stone to something better. It is not a man's profession, and wages of teachers are so low that men cannot afford to make teaching a career. And if the statistics of the census bureau are correct no extravagance of our people is so disastrous to us as the economy we are practicing in our schools. For the seventh and eighth grades. For the boys fall out by the millions. And the fact that their sisters who can earn as much at that age as their brothers, remain on an average a few years longer, indicates that the boys leave school because they are boys, and because the schools are designated for the girls. In some ways, indefinite way we seem to be realizing this as a people; for in ten states—Massachusetts, Utah, Indiana, Virginia, New Jersey, Illinois, Connecticut, Maryland, Ohio, California and Michigan—we have passed laws of more or less value providing for pensioning school teachers. Given a pension, and a man can afford to make teaching a profession, and the man teacher will appear in the seventh and eighth grades, and the boy will be saved to good citizenship. If the laws permitting school districts to set aside pension funds spread over the states, as the laws authorizing manual training schools have spread since 1900, by 1920 the million pupils who reach the high school every year will be greatly increased if there is any ground for prophecy in statistics. For teachers' pensions are now being agitated, according to letters from state school superintendents in Washington, South Dakota, Vermont, Florida, Kentucky, Wisconsin and New York—where a better law is demanded.

Education as an Efficiency Producer.
But this crime of the waste years between twelve and eighteen when American children leave school is more than a social crime against the ballot box—it is economic. In the Annals of the American Academy of Political and Social Science for January, 1909, (p. 54), we find an investigator writing: "The efficiency of the German workman, due to continuation schools has increased to such an extent in considering American competition negligible." These same German investigators declare that the efficiency of the American workman has decreased in the last ten years. Our own American consul-general to Berlin considering the reports of these German investigators, writes in a formal report to this government: "Reduced to its simplest terms these investigators generally conclude that reliance on a general and more or less superficial education together with natural adaptability to fit young men for every walk of life and the lack of specialized study in physical science, modern language and the industrial arts, will, if persisted in, neutralize much of the advantage which our country now enjoys."

Schools and the Courts.
And that brings us into the midst of the whole matter of this American democracy. Massachusetts seems to show us that the basis of real progress is in the school house, and the experience of other states with a less efficient school system proves beyond a doubt that the limits of progress are found in the restrictions put upon progress by the courts—for the most part restrictions of the federal courts. The constitution is amended by interpretation more than by formal amendment, and the amendments by interpretation are made by the courts as a result of a most inexorable law of human nature. Men take the color of their times. And courts are men.

CURES ECZEMA QUICKLY.

New Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the marvelous skin remedy known as poslam, which, it is safe to say, has cured more cases of eczema and skin disease than any remedy ever offered for these ills.

The success of poslam is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks.

The very worst cases of eczema, as well as acne, herpes, tetter, piles, salt rheum, rash, crusted humors, scaly scalp and every form of itch, yield to it readily. It diminishes such as pimples, red noses, muddy and inflamed skin disappear almost immediately when poslam is applied, the complexion being cleared over-night.

Every druggist keeps both the 50-cent size (for minor troubles) and the \$2 jar, and either of these may be obtained in Paducah at Gilbert's or R. W. Walker & Co's, as well as other reliable drug stores.

But no one is even asked to purchase poslam without first obtaining an experimental package which will be sent by mail, free of charge, upon request, by the Emergency Laboratories, 32 West Twenty-fifth street, New York City. No. 1

ment of the people becomes fixed, courts bend the constitution to the people.

Therefore the first obligation upon those who would change the trend of our American democracy from the worship of property rights to a consideration of those rights in relation to the rights of men should not be to change laws and reform the courts, but to go to the bottom and make men and women who can think and feel and act justly and unselfishly. The main spring of democracy is in the schools.

"It is practically impossible to find a community in the United States," says Nathan C. Schaeffer, state superintendent of Pennsylvania, writing in the discussion of taxation as related to public education, published by the national educational association, "that does not spend more money for whiskey and tobacco than for education." The report of the United States commission of education, 1907, indicates (p. 525) that there are only twice as many school teachers as there are bartenders in the country. So while the aggregate amount spent for schools is large, the comparative amount is small. A few states, notably Ohio, make provision for the reimbursement of parents for the time of children in school. And eventually all the states must come to that plan. For the statistics that the child on whom is so little compared with the need of the state for that child's judgment formed by a trained mind in making public sentiment when he is grown, that it is folly to haggle over the expense account. If democracy is to go forward, it must begin to move in the schools of the country. Now as a people we can move quickly when we desire to move quickly. Within ten years there has been a complete change in the American mind about the treatment of defective children. We have stopped putting children in jail; the juvenile court has come into the justice system of practically every American state. We do not count its cost, because we see its justice.

The upper grades of our common schools and our high schools and our colleges and universities are turning out millions of men and women who are giving their lives to society unselfishly as teachers and preachers and farmers and doctors and lawyers and mechanics and merchants, whose chief thought is not for money—men and women who form the bulk of the well-to-do, well-clad, well-fed prosperous body of the people neither rich nor poor. But often there rises in a town, a state or a nation some ignorant, selfish, crafty, brutal human culture, fat with prey taken within the law, and greedy for more. He dares the legislatures; he blinds the courts, and controls executives. The public sentiment of educated people does not check him, as it does the gross, vicious and unrestrained. Yet he is our own child. He and the criminal of the slums are brothers; and society has made both the ignorant slums of the rich man and the ignorant slums of the poor man.

CLOSEST FRIEND OF WILLIAM TAFT

SENATOR BOURNE, OF OREGON, CLAIMS THE HONOR.

He Never Talks Politics and Never Annoys the Chief Executive With Finances.

AT ELBOW ON ALL OCCASIONS

Washington, Aug. 4. (United Press)—Who is the closest man to President Taft? Senator Jonathan Bourne, of Oregon; so cried the president's chauffeur; so answers the president's caddy; so reply the secret service guards, the military aides and the newspaper men assigned to the white house.

No one venturing to deny the statement. It may be accepted as gospel; but why is Bourne closest? Ah, that's the question just now agitating the breasts of a great many worthy persons.

Why is Bourne? Is it because he looks off his coat, and his waistcoat, and his outer shirt, and his under shirt during the campaign and worked like the mischief to land Taft in the presidential chair? Well, hardly. Bourne kicked like an Oregon steer against the very name of Taft. He staked his reputation, spent his money, and moved all his friends to tears in the frantic effort to throw T. Roosevelt back into the white house against T. Roosevelt's will.

It therefore cannot be because the president owes Jonathan any pre-election debts. Can it be because Bourne is an old college chum of Mr. Taft's? Well, hardly once more. For Bourne attended a brief course at Harvard while W. H. Taft enlisted under the blue banner of Yale. Perhaps it is because while the president rides along in an auto with Bourne, or plays golf with him, he imbibes from his lips much wisdom of statecraft and many straight pointers on how to steer the ship of state. Wrong for the third time. No rule of rhyme or reason applies to Bourne, of Oregon.

As near as they can figure things out, Mr. Taft's friends think Bourne has attached himself to the presidential court talks simply because he likes to back in the sunlight. He is at the white house six days out of seven. If the president goes golfing, Bourne is pounding the little rubber ball at his heels. If the president goes riding, Bourne is by his side in the auto. If the president has a dinner, Bourne is almost sure to be at the table. If the president tells an anecdote, in almost any company, at home, on the wing, in winter or summer, day or night, Bourne's responsive laugh is sure there to be heard at the tail of the yarn.

"But what is Bourne after?" they ask. "What is his game?"

"He's after nothing; he has no game," is the truthful answer. He is the one gameless senator; the one aimless senator. Strange as it may seem, Bourne has never yet taken up a single matter of business with President Taft at a golf game, on the road, or at any other moment of recreation. He talks about everything else on earth but business.

Probably this is one reason why the president likes to have him around. When he is with Bourne he can forget that he is president of the United States with several thousand jobs at his disposal, and can act and feel like any other healthy American citizen who is diverting himself by rubbing up against nature.

President Taft says that the only time he remembers Bourne having taken up any business matters with him was several months ago while the ways and means committee was trying to whip the tariff bill into shape. Did he take up the case with him on the golf links? Bourne did not. He called upon Secretary Capper and very gravely made an appointment to see the president at 10:30 the next morning. He was at the office building punctually on the hour, waited his turn to get into the president's den, and then walked in and ceremoniously laid before Mr. Taft the dire distress that was threatening the hop raisers of the Pacific coast if the tariff on hops was reduced from 20 to 16 per cent.

After making his argument for his constituents Bourne handed the president a petition from the hop growers embodying their request.

When he met the president at the golf game that same afternoon he said not a word about hops and neither did the executive.

Bourne is a bachelor, thin, smooth-faced and wrinkled, is a lawyer by profession, a millionaire by heredity and through good investments, and is heavily interested in lumber in his native state and cotton mills in Massachusetts. He lives at Stoneleigh court, the smallest apartment house in Washington, and is chiefly famed for giving away the most cigars of any man in congress. His cigars are both the longest and the shortest known to the trade. Sometimes he will meet you and fish out a smoke that looks like a fence rail. Meet him again in ten minutes, perhaps, and he'll hand you a cigar that is about the size of a quill tooth pick. Then, again, he'll thrust upon you one of each or two or three of one kind, and get real "huffy" if you re-

Anty Drudge Gives Advice.

Eleanor (in tears)—"Here's my prettiest shirtwaist torn and ruined by that nasty laundry. I haven't a clean one to wear to the party to-night."

Anty Drudge—"Well, that one is past helping and crying for, but if you will get a cake of Fels-Naptha soap I'll show you how to get another one clean in a hurry, in cold water, with very little work. We'll iron it, too, in a jiffy and it will be far cleaner and fresher than any laundry can make it."

How long your light summer clothes last depends not on how much they are worn, but on how often they are washed. That is, if they are washed in the old-fashioned way.

If they are washed with Fels-Naptha in cold or lukewarm water, the washing won't harm them a bit.

Boiling hurts any clothes, but it is particularly hard on light stuffs, such as sheer linens, lawns, laces and muslins—rots the fabric so they will tear easily. And hard rubbing on the washboard wears them out and frays them.

You avoid this by washing the Fels-Naptha way in cold or lukewarm water. Boiling and hard-rubbing are unnecessary, because Fels-Naptha dissolves the dirt into tiny particles which are sent flying by light rubbing and thorough rinsing.

Then, too, the clothes are cleaner, whiter and sweeter, as well as longer-wearing.

Be sure to follow the easy directions on the red and green wrapper.

He has them made to order in Havana and they are popularly supposed to cost him during the course of a year as much as he draws in salary from Uncle Sam.

BOARD OF PUBLIC WORKS MEETING

HELD AT THE CITY HALL TO
TRANSACT ROUTINE.

Plans for Fountain Avenue Exten-
sion Reported by Engineer L. A.
Washington.

TWO CLAIMS ARE HELD UP

It cost the city street department
\$64.39 more to care for the streets
in July than it did for the month of
July, 1908. This was shown in the
monthly report of Street Inspector
Ernest Bell, which was filed at the
regular meeting of the board of pub-
lic works at the city hall at 2:30
o'clock yesterday afternoon. It
showed the price of labor to be
\$589.59, which is an increase of
\$171.30 over the same month last
year. Gravel amounted to \$523.73,
an increase of \$13.94 over last year
and expenditures amounting to
\$163.92. The latter item is a de-
crease of \$123.91 over 1908.

The Inspector's report of weed cut-
ting showed that the price paid to
rid the city of its weeds was some-
thing over \$299. The weed cutting
has been finished and all sections of
the city visited by weed cutting
gangs.

City Engineer L. A. Washington
submitted plans and specifications for
the extension of Seventeenth street
(Fountain avenue) south to H street,
an extension of 100 feet, and the board
decided to advertise for bids from
contractors on August 16 at 3:30
o'clock. The street will be a great
improvement and the expense will be
paid mostly by the property owners.
They will bear the expense of the
concrete culvert entirely.

Next Tuesday afternoon the board
will also advertise for bids for the
improvement of Plunkett hill extend-
ing to the Illinois Central railroad
property.

Claims Are Held Up

The Babcock-Welch boiler com-
pany sent in a claim of \$1,120 for
the damage due on the new boiler in-
stalled at the city lighting plant. As
the company has not made a test of
the boiler and sent in a written re-
port to the board the claim was not
allowed and will be upheld until a
report of the test is made. The boiler
will stand 160 pounds of steam to
the square inch while a preliminary
test of 225 hydrostatic pounds will
be made.

City Auditor Alex Kirkland, clerk
of the board of public works, read a
letter which was sent to the John A.
Jewell company, of Cincinnati, in re-
ply to their request for \$619.86,
balance due on the construction of
the brick smoke stack at the city
light plant, stating that the city
would not allow the claim until the
company had settled all the claims
against it in Paducah. Claims held
by Paducah firms for supplies fur-
nished the company amount to
\$674.61. The company paid a license
to do the work here but its repre-
sentative departed without making a
settlement.

The Paducah Brewery company
was granted permission to install a
manhole and intake trap at its plant
on Monroe street near Tenth street
to carry the surface drainage into
the sewers. The improvement will
be made at the company's expense
and under the supervision of the city
engineer.

The board authorized the placing
of a street light on Kentucky avenue
between Fourteenth and Fifteenth
streets.

Time Extended.

M. H. Wedel was granted an ex-
tension of 60 days' time in which to
begin work on the sewer back of
Fountain avenue running from Broad-
way to Jefferson street. He entered
into a contract with the city Feb-
ruary 26, wherein he was to improve
the property, which is his own, and
to be relieved of taxes. The prop-
erty is low and he will build a sewer
and fill in the property, which he
says will greatly increase its value.
He will be given until September 11
to fulfill the contract. He was granted
a 60 days' extension of time some
time ago and it has expired. The
reason for the delay he gave was that
the rains had interrupted him as well
as other pressing business.

The petition of J. A. Gardner for
a larger pipe near his property at
Eight and Adams streets to carry
off the overflow of water was referred
to City Engineer L. A. Washington.

City Masterman Clark reported
that the cupola of the market house
leaked during very hard rains. The
matter was not acted on.

President Rudy and Mr. Lack were
present yesterday. Mr. Kolb was
absent.

The Secret of Long Life.

A French scientist has discovered
one secret of long life. His method
deals with the blood. But long ago
millions of Americans had proved
Electric Bitters prolongs life and
makes it worth living. It purifies,
enriches and vitalizes the blood, re-
builds wasted nerve cells, imparts
life and tone to the entire system.
It's a godsend to weak, sick and de-
bilitated people. "Kidney trouble
had blighted my life for months,"
writes W. M. Sherman, of Cushing,
Me., "but Electric Bitters cured me
entirely." Only 50c at all druggists.

MAKES GOOD, HEALTHY FLESH

E. W. Walker Co. Offer to Pay For
Samose If It Fails.

Begin the use of Samose, today,
and you will soon notice a gain in
good, healthy flesh. To all who are
thin, weak and run down, this re-
markable flesh-forming food prom-
ises plump, rosy, perfect health,
vigor and vitality.

Samose mingles with the food that
is eaten, so that it is assimilated by
the blood, and builds up pleasing,
plumpness and good healthy flesh.
Those who use Samose for a week or
ten days will soon notice a gain in
weight and an improvement in gen-
eral strength and health.

Put good, solid flesh on your
bones, and you will be strong and
well. In no other way can this be
done than by the use of Samose. It
gives plumpness and physical grace
to the thin and scrawny, and will
make you bright, rosy and normally
fat.

Samose is in tablet form, pleasant
to take, and is sold by one of the
most reputable drug stores in Padu-
cah, E. W. Walker Co., under their
personal guarantee to refund the
money if it does not give satisfac-
tion. Sent postpaid on receipt of
price, 50c.

Infantry and Artillery Draw Men
From Western Kentucky
This Time.

Five recruits for the United States
army were accepted yesterday after-
noon by Captain George Kirkpatrick,
of Evansville. The men were enlist-
ed by Sergeant C. A. Baker, in
charge of the local station. Captain
Kirkpatrick has returned home. The
men were: Phillip H. Ledbetter, of
Hicks, Ill., for coast artillery; Her-
bert Austin, of Salem, Ky., infantry;
Ivan D. Warren, of Paducah, route
No. 6, for coast artillery; Caleb S.
Chummins, of Barlow, for infantry,
and Walter A. Heeder, of Allen
Springs, Ill., for infantry. The men
were sent to Jefferson barracks, St.
Louis this morning for assignment.

BANQUET GIVEN FOR ROOSEVELT

GOVERNOR OF BRITISH EAST
AFRICA PRESENTED.

Some Handsome Gifts Presented to
Ex-President—Roosevelt Re-
ceives Africa Officers Great

OPPORTUNITY TO THE RACE

Nairobi, Aug. 4.—Roosevelt and
his son Kermit were the guests of
honor at a public banquet here last
night. The governor of British East
Africa was chairman, and 17 per-
sons were present. The town clerk
presented the welcoming address en-
closed in a section of elephant tusk
mounted with silver and with a sil-
ver chain. The American residents
presented Roosevelt with a tobacco
box made of the hoof of a rhinoceros,
silver mounted, a skull of a rhinoc-
eros, mounted in silver and also a
buffalo head.

Roosevelt Speaks.

Roosevelt responded to a toast pro-
posed by Governor Jackson, thanked
the people of British East Africa for
the generous hospitality and said:
"I had a thorough good time, I am
immensely interested in the country
and its possibilities as an abode for
white men. Very large tracts are fit
for large population and healthy, pros-
perous settlements, and it would be
a calamity to neglect them. But the
settlers must be of the right type."

"I believe one of the best seats
performed by members of the white
race in the last ten years is the build-
ing of the Uganda railroad. I am
convinced this country has a great
agricultural and industrial future,
and it is the most attractive play-
ground in the world. Ample induc-
ements should be offered to capitalists
to come here. The home maker and
actual settler, not the speculator
should be encouraged in making this
a white man's country."

"We must remember that righte-
ousness and our real ultimate self-
interest demand that blacks be treat-
ed justly. I have no patience with
sentimentalists. I think the senti-
mentalists does more harm to in-
dividuals than brutality. Therefore I
believe in helping the missionary of
whatever creed, who is laboring sin-
cerely and disinterestedly with prac-
tical good sense."

Like Western Americans.
"Your settlers remind me of some
men in our west, with whom I have
worked and in whose aspiration I so
deeply sympathize."

In conclusion Roosevelt compared
the conditions of British East Africa
with those that confronted the pla-
neters of western America.

Messrs. Hays & Miller Bros.:

Gentlemen:—I am delighted to say
to you that the sample bottle of
Hays' Specific I used from you has
done even more than you recom-
mended or than I anticipated. I can
truly and with confidence assure any
one who uses it that it will not dis-
appoint them in any case of rheuma-
tism or Torpid Liver. Further than
this, I have not tried it, hence this
deponent says no further.

For the information of any one
suffering with Eczema, I will say I
had what was called Eczema for a
number of years. I could find no re-
lief from any source, till I took Hays'
Specific. It cured me and I can con-
scientiously recommend it to any one
suffering with Eczema. Try it and
be convinced. My office is at the
wharfboat, my 'phone No. 49.

HEALTH OFFICERS PLEASED
WITH PROGRESS OF CAMPAIGN.

Indiana and Kentucky Boards Talk
of Seeding Mrs. Crane Again.

The Courier-Journal says:

"Mrs. Caroline Hartlett Crane, of
Kalamazoo, Mich., the female apostle
of civic improvement, who was here
several months ago at the behest of
the Federated Woman's clubs and the
county health officers, may be in-
duced to return here again this fall
to assist the health officials in the
efforts to bring about perfect sani-
tation. At a joint meeting of the
health officers of Kentucky and In-
diana yesterday afternoon, held in
Dr. B. W. Smock's office in the court
house, the Kentucky officials dis-
cussed the advisability of securing
Mrs. Crane this fall. No definite
action was taken on the matter, how-
ever, but it is likely that Mrs. Crane
will be approached later on."

"Dr. B. W. Smock, county health
officer, has been in correspondence
with Mrs. Crane for some time past,
but it is not known whether the
health officials will be successful in
getting her to return here again. It
was said by Dr. J. W. McCormack,

A Japanese Peculiarity.

Ever since we had taken the road
at Kobe, we noticed that through-
out many of the pedestrians and
carimen failed to notice the "chog-
ching" of the unmuffled motor.

Even a peremptory "honk-honk"
failed to attract attention. It was
not until Mr. Mamei, or his suc-
cessor, Mr. Ito, sang out "hal-hal"
the cry used by riksha men to de-
mand the right of way from the
slower moving horse and bullock
carts—that the obstructing pedes-
trians or carmen would look up, and
then, surprise and wonder written
over their countenances, lustily get
to one side.—Outing Magazine.
